

# Precision Metal Stamping Services SPTE, Galvanized Sheet With Anodized, Powder Coating Surface Treatment

## Specifications :

Price	Contact us
Brand Name	ETCN
Place of Origin	Shanghai
Min.Order Quantity	100
Payment Terms	T/T,L/C,D/P
Supply Ability	7 days
Delivery Detail	3days--7days
Packaging Details	Wooden case or wooden pellets depended on clients' require

## Detail Introduction :

Customised Colours Cold Roll Steel Metal Stamping Services for Mining Heavy Machinery  
Company overview

## Customised Colours Cold Roll Steel Metal Stamping Services for Mining & Heavy Machinery

### Products Description?

<b>Mold Material</b>	Cr12
<b>Mold Life Time</b>	300K times
<b>Product Material</b>	1) AL1060, AL6061, AL6061, AL5052 2) Steel, mild steel, SPCC 3) SS201, SS303, SS304, SS316, SS316L 4) SPTE, galvanized sheet 5) Brass, copper
<b>Surface Treatment</b>	Anodized, powder coating, lacquer coating, black oxide
<b>Size</b>	1) According to customers' drawings 2) According to customers' samples
<b>Drawing Format</b>	step, dwg, igs, pdf
<b>Certificates</b>	ISO 9001:2015 & IATF 16949
<b>Payment Term</b>	T/T, L/C, Trade Assurance

### Our Equipment?

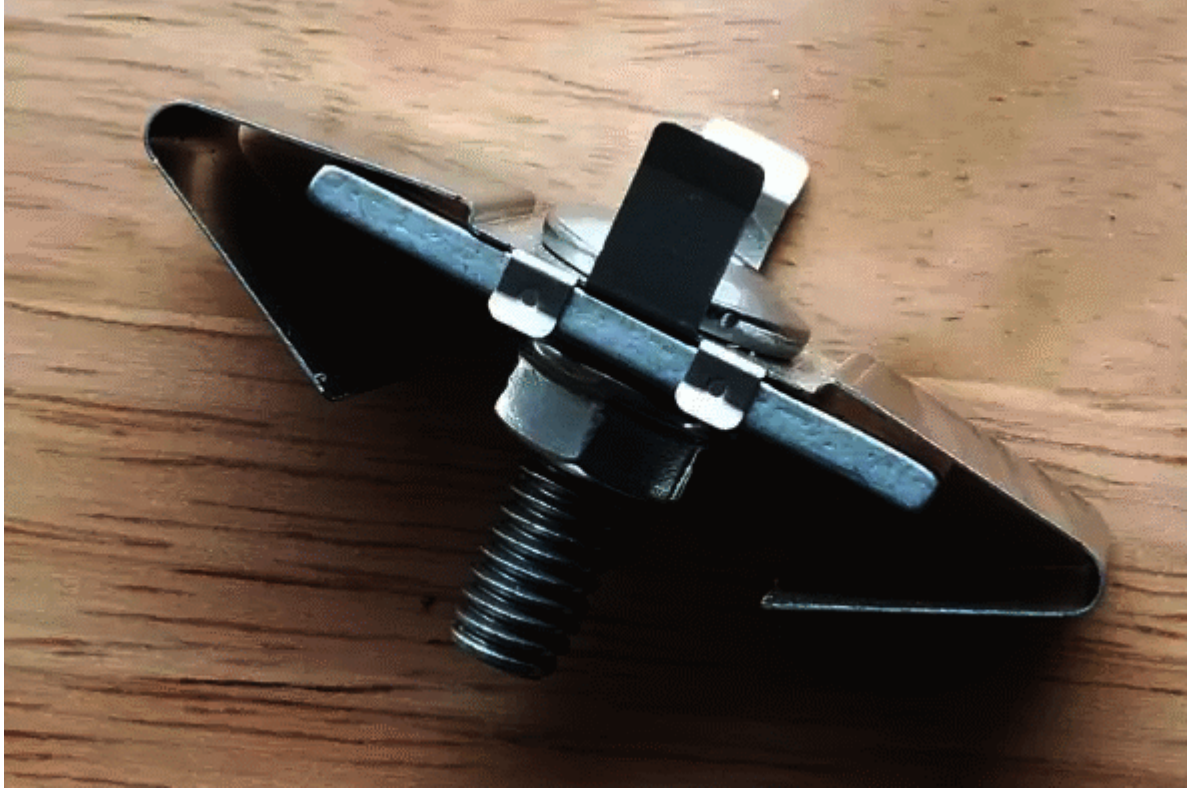

160T punching machine	1
110T punching machine	2
60T punching machine	3
40T punching machine	1

Hydraulic shearing machine

### European and American market

1. We have own factory and have experienced staff.
2. We provide a competitive price.
3. High precision, tolerance can be within  $\pm 0.01$ mm.
4. All your information is confidential, and we can sign NDA as well.
5. Small order also is welcomed.
6. We can also provide one-stop service, including mold and assembly.

### Why Choose Us

One-stop Solution

From mold design, mold making, machining, fabrication, welding, surface treatment, assembly, packing to shipping

Quality Guarantee

We have a professional team to control the quality. Experienced engineers, precision machines, CMM and closed-loop QC system

Customer Service

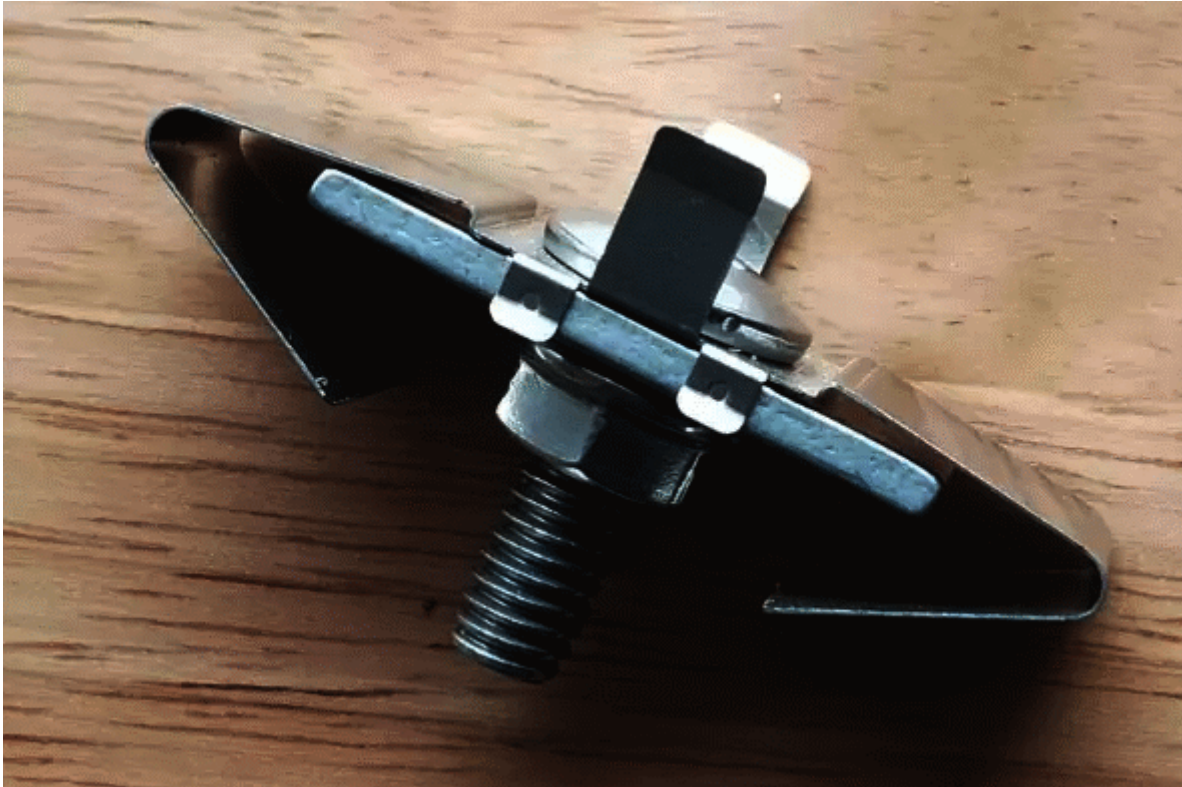

Every client is served by a specialized sales for timely technical support and after-sales service

## Company overview

Our company is a specialized provider of metal forging, machining, stamping customized parts and Stainless Steel Braided Hose. We have a complete in-house manufacturing system - from products design, making, testing, to parts processing and assembly. With many years of export experience, we have established a long-term cooperation relationship with many customers in Europe, America, Middle East and South-east Asia and all over the world.

All our products are manufactured under Precision manufacturing. Owning various types of precision automatic equipments: 120 sets of CNC Lathe, CNC machining centers, forging and Stamping Machines, thread rolling machines and other processing machines, those have a monthly capacity of 3,000,000 units, to match your volume orders .There are also lots of testing equipment for quality assurance. Such as: three dimensional, optical Projector, Surfagauge, sclerometer, Tension tester, etc.

**FAQ**

Q1.Are you a factory or trade company?

A1:We are a factory located in China. Welcome to visit our factory.

Q2.How to ensure that every process's quality?

A2:Every process will be checked by our quality inspection department which insures every product's quality. In the production of products,we will personally go to the factory to check the quality of

products.

Q3.How long is your delivery time?

A3:Our delivery time is generally 30 to 45 days. Or according to the quantity.

Q4.What is your main products?

A4:Our main products are cnc machining parts and metal stamping services.

Q5.Can you provide a sample?

A5:Sure, Our sample is provided after receiving the tooling cost and courier fees.
